Remarks/Notes/Limitations:

Remarks: Outdoor operation of this device may be subject to national frequency policies and restrictions, and shall be checked before use.

Note 1: Although not required by the standard, this device supports TPC.

Limitations: Before putting a product on the market which uses non harmonised frequencies (Class 2), the national authorities of the member states have to be notified. The NB Opinion assessment is limited to the essential requirements of the R&TTE Directive. Only products fulfilling all essential requirements of all applicable new approach directives may be placed on the market and put into service. Products in compliance with all provisions of all applicable directives providing for the CE marking must bear this marking. At present this device is a class 1 device and be marked as shown below:
